

# Schriftenverzeichnis Prof. Dr. Chr. Wilhelm

1. **WILHELM C.** and A. WILD

The effect of vanadium on the content of chlorophyll, P-700 and cytochrome f at different light intensities.

Biochem. Physiol. Pflanzen 175, 163-171, 1980

2. **WILHELM C.** and A. WILD

Effect of vanadium on growth, photosynthesis and cytochrome f in autotrophic grown *Chlorella* cells.

Proceedings of 5th Intern. Congr. Photos. Vol.6, G. Akoyunoglou (ed.) pp. 495-505, 1981

3. **WILHELM C.**, EISENBEIS G. and A. WILD

*Nanochlorum eucaryotum*: a very reduced coccoid species of marine Chlorophyceae

Z. Naturforsch. 37c, 107-114, 1982

4. **WILHELM C.** and A. WILD

Growth and photosynthesis of *Nanochlorum eucaryotum*, a new and extremely small eucaryotic green alga.

Z. Naturforsch. 37c, 115-119, 1982

5. WIEDEMANN I., **WILHELM C.** and A. WILD

Isolation of chlorophyll-protein complexes and quantification of electron transport components in *Synura petersenii* and *Tribonema aequale*

Photosynth. Res. 4, 317-329, 1983

6. **WILHELM C.** and A. WILD

The variability of the photosynthetic unit in *Chlorella fusca*

Proceedings of 6th Intern. Congr. Photos. S. Sysbesma (ed) Vol. 2, pp. 495-505, Brussels, 1983

7. **WILHELM C.** and A. WILD

The regulation of the photosynthetic unit size by different environmental factors during growth in *Chlorella fusca*.

Hoppe-Seylers Z. Physiol. Chem. 364,1230, 1983

8. **WILHELM C.** and A. WILD

The variability of the photosynthetic unit in *Chlorella*

I. The effect of vanadium on photosynthesis, P-700 and cytochrome f in homocontinuous cultures of *Chlorella*

J. Plant Physiol. 115, 115-124, 1984

9. **WILHELM C.** and A. WILD

The variability of the photosynthetic unit in *Chlorella*

II. The effect of light intensity and cell development on photosynthesis, P-700 and cytochrome f in homocontinuous and synchronous cultures of *Chlorella*

J. Plant Physiol. 115, 124-135, 1984

10. **WILHELM C.**, KRÄMER P. and A. WILD

Effect of different light qualities on the ultrastructure, thylakoid membrane composition and assimilation metabolism in *Chlorella fusca*

Physiol. Plant. 64, 359-364, 1985

11. **WILHELM C.**, LENARTZ-WEILER I., WIEDEMANN I. and A. WILD

The light harvesting system of *Micromonas* species (Prasinophyceae): The combination of three different chlorophyll species in one single chlorophyll protein complex

Phycologia 25 (3), 304-312, 1985

12. **EHLSCHEID T.**, WILHELM C. and B. SCHARF

Auswirkungen der Sanierung und Restaurierung des Meerfelder Maares auf das Phytoplankton Mitt. Pollichia 73-88, 1986

13. **WILHELM C.**

Purification and identification of chlorophyll c-1 from the green alga *Mantoniella squamata*

Biochim. Biophys. Acta (B) 892: 23-29, 1987

14. **WILHELM C.**

The existence of chlorophyll c in the chlorophyll b containing light-harvesting complex of the green alga *Mantoniella squamata* (Prasinophyceae)

Botanica Acta 0, 7-10, 1987

15. **WILHELM C.** and I. LENARTZ-WEILER

Energy transfer and pigment composition in three chlorophyll b containing light-harvesting complexes isolated from *Mantoniella squamata*, *Chlorella fusca* and *Sinapis alba*

Photosynth. Res. 13: 101-111, 1987

16. **WILHELM C.**, P. KRÄMER and I. WIEDEMANN

Die Lichtsammelkomplexe der verschiedenen Algenstämme  
 - Phylogenetische Vielfalt eukaryotischer Photosyntheseapparate -  
 Biologie in unserer Zeit, 17: 138-143, 1987

17. **WILHELM C.**, C. BÜCHEL and B. ROUSSEAU

Isolation and Characterization of a Chlorophyll a/c-Heteroxanthin/Diadinoxanthin Light-Harvesting Complex from *Pleurochloris meiringensis* (Xanthophyceae)  
 in: Organization and function of photosynthetic antennas (S. Schneider and H. Scheer, eds),  
 Springer, Heidelberg-Berlin, 1988

18. **WILHELM C.**, C. BÜCHEL and B. ROUSSEAU

The Molecular Organization of Chlorophyll-Protein Complexes  
 in the Xanthophycean Alga *Pleurochloris meiringensis*  
 Biochim. Biophys. Acta 934: 220-226, 1988

19. KRÄMER P., **WILHELM C.** WILD A., MÖRSCHER, E. and E. RIEHL

Ultrastructure and freeze fracture studies of the thylakoids of *Mantoniella squamata*  
 (Prasinophyceae)  
 Protoplasma 147: 170-177, 1988

20. BÜCHEL C. and **C. WILHELM**

The molecular analysis of the light adaptation reactions in the yellow-green alga *Pleurochloris meiringensis* (Xanthophyceae).  
 Botanica Acta 4, 306-311, 1988

21. PREISIG H.G. and **C. WILHELM**

*Botryochloropsis* gen.nov.: a new genus of the Eustigmatophyceae  
 Phycologia 28, 61-69, 1989

22. **WILHELM C.**, KRÄMER, P and I. LENARTZ-WEILER

A new molecular strategy of the energy distribution between the photosystems by extreme variation in photosystem I/II stoichiometries probed in the chlorophyll b-containing alga *Mantoniella squamata*  
 Photosynth. Res. 20: 221-233, 1989

23. **WILHELM C.**, KRÄMER P. and I. LENARTZ-WEILER

The influence of photoadaptation on the absorption cross section and the energy distribution in *Mantoniella squamata* (Prasinophyceae)  
 Crypt. Bot. 1: 355-359, 1990

24. **WILHELM C.** and J.C. DUVAL

Fluorescence induction kinetics as a tool to detect chlororespiratorian activity in the prasinophycean alga *Mantoniella squamata*.

Biochim. Biophys. Acta. 1016: 197-202, 1990

25. BRANDT. P. and **C. WILHELM**

The light-harvesting system of *Euglena gracilis* during the cell cycle.

Planta 180:293-296, 1990

26. **WILHELM C.**, WIEDEMANN, I., MAY, M. and I. LENARTZ-WEILER, I.

Characterization of the light-harvesting antenna organization of two differently organized chlorophyll b-containing eukaryotic microalgae

Planta 180:456-457, 1990

27. **WILHELM C.**

The biochemistry and physiology of light-harvesting antennae in chlorophyll b- and chlorophyll c-containing algae

Plant Physiol. Biochem. 28 (2), 293-306, 1990

28. BÜCHEL C. and **C. WILHELM**

The interaction of state transitions and chlororespiration in the xanthophycean alga *Pleurochloris meiringensis*.

in: Current Research in Photosynth. M. Baltscheffsky (ed.) Vol.II 943-946, 1990

29. LANGE W., SCHATZ, G.H., **WILHELM C.** and E. MÖRSCHER

The supramolecular structure of the light-harvesting system of cyanobacteria and red algae.

in: Current Research in Photosynth. M. Baltscheffsky (ed.) Vol.II 105-108, 1990

30. **WILHELM C.**

The molecular architecture of the thylakoid membrane from various classes of eukaryotic algae.

Recent Advances in Experimental Phycology, Vol. 5, pp.173-187; Wiessner W. and Robinson G (eds.), Springer, 1990.

31. BÜCHEL C. and **C. WILHELM**

Wavelength independent state transitions and light regulated chlororespiration as mechanisms to control the energy status in the chloroplast of the xanthophycean alga *Pleurochloris meiringensis*.

Plant Physiol. Biochem. 28: 307-314, 1990

32. LANGE, W., **WILHELM, C.**, WEHRMEYER, W. and E. MÖRSCHER

The supramolecular structure of Photosystem II - Phycobilisome - Complexes of *Porphyridium cruentum*.

Botanica Acta 3: 250-257, 1990

33. RENNER W., RUDOLPH I. and **C. WILHELM**  
Limnology of Eifel Maars: 10. Phytoplankton of Lake Meerfelder Maar in 1989 determined by classical counting technique and a new HPLC-aided method on the basis of pigment analysis. Arch. Hydrobiol. Beiheft Ergeb. Limnol., (eds B. Scharf and W. Björn), 38, 137-142, 1992
34. **WILHELM C.** and I. WIEDEMANN  
Evidence of protein-bound chlorophyll c3 in a light-harvesting protein isolated from the flagellate algae *Prymnesium parvum*, (Prymnesiophyceae).  
Photosynthetica, 25, 249-255, 1991
35. RENNER W., RUDOLPH I. and **C. WILHELM**  
A quantitative method based on HPLC-aided pigment analysis to monitor structure and dynamics of the phytoplankton assemblage - A study from lake Meerfelder Maar (Eifel, Germany).  
Arch. Hydrobiol. 123, 21-35, 1991
36. **WILHELM C.**, MÜLLER A.M., BORSTELMANN, B. and R. SCHNETTER  
The pigment composition of Chlorarachnion reptans (Chlorarachniophyta) and of Cryptochlora perforans (Chlorarachniophyta).  
Crypt. Bot. 2/3 201-204, 1991
37. BÜCHEL, C. and **C. WILHELM**  
Evidence for a lateral heterogeneity by patchwork-like areas enriched with photosystem I complexes in the three thylakoid lamellae of *Pleurochloris meiringensis* (Xanthophyceae)  
J. Crypt. Bot. 2, 375-386, 1992
38. HEROLD, A., SCHMITT, A., **WILHELM, C.** and A. WILD  
Purification and characterization of an intact light-harvesting protein without subpopulations from the green alga *Mantoniella squamata* (Prasinophyceae).  
Photosynthetica, 25: 645-653, 1991
39. LARGEAU, J.-C., CASADEVALL, E., BERKALOFF, C. and **C. WILHELM**  
Structure of the resistant biopolymer of the outer cell walls in *Chlorella fusca* and *Nanochlorum eukaryotum*.  
Phytochemistry, 31:1923-1929, 1991
40. **WILHELM, C.** and L. MANNS  
Changes in pigmentation of different phytoplankton species during growth und steady state culture conditions  
Appl. Phycol. 3, 305-310, 1991

41. SCHÖNHOF, M., LÖSCHE; M., MEYER; M. and C. **WILHELM**  
Incorporation of membrane proteins into lipid surface monolayers: Characterization by fluorescence and electron microscopies.  
Progr. Coll. Polym. Sci. 89, 243-248, 1992
42. SCHMITT A., HEROLD A., Welte, C., A. WILD and C. **WILHELM**,  
The light-harvesting system of the unicellular alga *Mantoniella squamata* (Prasinophyceae): Evidence for the lack of a photosystem I-specific antenna complex.  
J. Photochem. Photobiol., 57, 132-138, 1993
43. BÜCHEL C and C. **WILHELM**  
In-vivo analysis of slow fluorescence induction kinetics in algae: progress, problems and perspectives.  
J. Photochem. Photobiol. 58, 137-148, 1993
44. **WILHELM, C.**  
Some critical remarks on the suitability of the concept of the photosynthetic unit in photosynthesis research and phytoplankton ecology.  
Botanica Acta, 106, 287-293, 1993
45. HEROLD, A., SCHMITT, A., **WILHELM, C.** and WILD, A.  
Isolation and purification of an intact light-harvesting protein from the green alga *Mantoniella squamata* (Prasinophyceae)  
Photosynthetica 25, 645-653, 1993
46. MEYER, M. and C. **WILHELM**  
Reconstitution of Light-harvesting complexes from *Chlorella fusca* (Chlorophyceae) and *Mantoniella squamata* (Prasinophyceae).  
Z. Naturforsch. C 48c, 461-473, 1993
47. BÜCHEL C and C. **WILHELM**  
Isolation and characterization of a photosystem I specific light harvesting antenna in the xanthophycean alga *Pleurochloris meiringensis*.  
J. Photochem. Photobiol. 20, 87-93, 1993
8. CONRAD, R., BÜCHEL, C.; **WILHELM, C.**; ARSALANE; C. BERKALOFF, W. and J.-D. DUVAL.  
Changes in the yield of the in-vivo fluorescence of chlorophyll a as a tool for selective herbicide monitoring.  
J. Appl. Phycol. 5, 505-516, 1993

49. ARSALANE, W.; PARESYS G., DUVAL, J.-D.; **WILHELM, C.**; CONRAD, R. and BÜCHEL, C.  
A new fluorometric device to measure the in-vivo chlorophyll a fluorescence yield in microalgae and its use as an herbicide monitor.  
J. Europ. Phycol. 28, 247-252, 1993
50. S. BLEZINGER, WILHELM C: and J. KESSELMEIER  
Exchange of reduced sulphur compounds between marine phytoplankton and the Ocean  
in: Proc. of EUROTRAC Symposium '94 (ed. P.M. Borell) pp. 559-562, SPB Academic Publishing The Hague, The Netherlands
51. H.W. TRISSL and **WILHELM, C.**  
Why do thylakoid membranes from higher plants form grana stacks?  
TIBS 18 (no 11) 415-419, 1993
52. BLEZINGER; S., **WILHELM, C.** and J. KESSELMEIER:  
Exchange of reduced sulphur compounds between marine phytoplankton and the Ocean.  
In: The Proceedings of EUROTRAC Symposium '94, P.M. Borell (ed.) pp. 559-562, SBP Publishing, The Hague, The Netherlands, 1994
52. SCHMITT, A.; FRANK, G., JAMES, P.; ZUBER, H. and **WILHELM, C.**  
The light-harvesting protein from the prasinophycean alga *Mantoniella squamata*  
Photosynth. Res. 40, 269-277, 1994
53. WILHELM, C., VOLKMAR, P., LOHMANN, C., BECKER, A. and M. MEYER  
The HPLC-aided pigment analysis of phytoplankton cells as a powerful in water quality control.  
J. Water SRT - Aqua 44, 132-141, 1995
54. PROTOSCHILL-KREBS; G; **WILHELM, C.** and J. KESSELMEIER: Consumption of carbonyl sulphide by *Chlamydomonas reinhardtii* with different activities of CA induced by different CO<sub>2</sub>-growing regimes. *Botanica Acta* 108, 403-466, 1995.
55. LEITO, J.M., LORENZ, B., BACHINSKI, N., **WILHELM, C.**, MÜLLER, W.E.G. and SCHRÖDER, H.  
Osmotic-stress induced synthesis and degradation of inorganic polyphosphates in the alga *Phaeodactylum tricornerutum*  
Mar. Ecol. Progr. Ser. 121: 279-288, 1995
56. EGELAND, E.; WENCHE, E.; **WILHELM, C.**; ZAPATA, M. and LIAAN-JENSEN.  
Carotenoids from further prasinophytes.  
Biochem. Syst. Ecol. 23, 747-755, 1995

57. HECKS, B., **WILHELM**, C. and H.-W. TRISSL  
Organization of the photosynthetic membrane of the primitive alga *Mantoniella squamata*.  
In: Photosynthesis: from Light to Biosphere, (P. Mathis, editor), Vol. III, pp. 281-284, Kluwer Academic Publishers, Dordrecht, 1995.
58. **WILHELM**, C., LOHR, M., BIDA, J. and A. DOMIN  
Is the measure of PSII quantum yield by means of in-vivo Chl a-fluorescence really a direct measure of phytoplankton primary production? In: Photosynthesis: from Light to Biosphere, (P. Mathis, editor), Vol. V, pp.809-812, Kluwer Academic Publishers, Dordrecht, 1995.
59. **WILHELM**, C., LOHR, M. and BIDA, J.:  
Does photoinhibition really decrease primary production?  
Scientia Marina, 60 (Supl. 1) 249-253, 1996
60. PROTOSCHILL-KREBS; G; **WILHELM**, C. and J. KESSELMEIER: Consumption of carbonyl sulphide (COS) by higher plant carbonic anhydrase (CA). Atmospheric Environment 30: 3151-3156, 1996
61. **WILHELM**, C., CONRAD, R., MEITZLER, L. and A. MÜHLENWEG  
The combination of solid phase extraction and pulse-amplitude modulated fluorescence from unicellular microalgae to detect photophsystem II herbicides up to 0,05  $\mu\text{g l}^{-1}$ . J. Appl. Phycol. 8, 171-173, 1996
62. SCHNEPF, E.; NIEMANN, A. and C. **WILHELM**:  
*Pseudostaurastrum limneticum*, an Eustigmatophycean Alga with astigmatic zoospores:  
Morphogenesis, fine structure, pigment composition and taxonomy.  
Arch. Protistenkd, 146: 237-249, 1996
63. **WILHELM**, C., KOLZ, S., SCHMITT, A.; ZUBER, H., EGELAND, E. and S. LIAAN-JENSEN.  
Refined carotenoid analysis of the major light-harvesting protein of *Mantoniella squamata*.  
Photosynthetica, 33, 161-171, 1997
64. HECKS, B., **WILHELM**, C. and H.-W. TRISSL  
Functional organization of the photosynthetic apparatus of the primitive alga *Mantoniella squamata*.  
Biochim. Biophys. Acta. 1274, 21-30, 1996

65. MEYER, M.; **WILHELM**, C. and G. GARAB.  
Pigment-pigment interactions and secondary structure of reconstituted algal chlorophyll a/b binding light harvesting complexes of *Chlorella fusca* with different pigment compositions and pigment-protein stoichiometries.  
Photosynthesis Research, 49: 71-81, 1996
66. **WILHELM**, C., HILSE, C., KAISER, B., LOHR, M., MÜLLER, A.M. and J. KESSELMEIER.: Interaction between global climate change and the physiological responses of algae. Photosynthetica, 33: 491-503, 1997
67. **WILHELM**, C., LOHMANN, C.,  
Recent Progress in the analysis of the phytoplankton community structure and the determination of its photosynthetic activity. In: The Microbiological Quality of Water (ed. D.W. Sutcliffe) pp.81-91, Freshwater Biological Associations special Publications, Ambleside, Cumbria, 1997
68. DECKER, K., WIEGAND-ROSINUS, M. OBST, U. and **WILHELM**, C.  
Flow analysis of microbial enzyme activities (FAME) to control effects on biological treatment processes. - Experiences of testing embankment filtrates  
J. Environ. Toxicol. 34: 337-344, 1996
69. MÜLLER, A.-M., and C. **WILHELM**  
The adaptation of the phytoplankton diatom *Phaeodactylum tricornutum* to light stress under the conditions of a natural light climate.  
Revue Inter. Hydrobiol. 82 (3) 315-328, 1997
70. **WILHELM**; C., A. BECKER; C. LOHMANN; P. VOLKMAR  
Die HPLC-gestützte Pigmentanalyse zur quantitativen Bestimmung der Phytoplanktonzusammensetzung. In: Sanierung von Talsperren und Seen, Schriftenreihe des BMBF, (Karlsruhe), herausgegeben von C. Clasen und D. Uhlmann, S. 105-138, Dresden, 1998
71. GOSS, R. BÖHME, K. and C. WILHELM  
The xanthophyll cycle of *Mantoniella squamata* converts violaxanthin into antheraxanthin but not to zeaxanthin. Planta, 205, 613-621, 1998
72. **C. WILHELM**  
Entwicklung einer HPLC-gestützten Methode der Phytoplanktonanalyse zur Bestimmung der Wassergüte. IN: Herausragende Ergebnisse sächsischer Forschung, Sächsisches Staatsministerium für Wissenschaft und Kunst (Hrgbr), S 19-21, Dresden, 1998

73. R. GOSS, MEWES, H., **C. WILHELM**

Stimulation of the diadinoxanthin cycle due to UV-B radiation in the diatom *Phaeodactylum tricorutum*. Photosynth. Res. 59, 73-80, 1999

74. GILBERT M., SASS, L. VASS, I. and **C. WILHELM**

Effects of UV-B radiation in *Phaeodactylum tricorutum* and *Scenedesmus obliquus*: A thermoluminescence study.

In: Photosynthesis: Mechanisms and Effects. (G. Garab, Ed.) Vol. III, pp.2377-2380, Kluwer Academic Press Publishers Dordrecht, 1999

75. **C. WILHELM**

The analysis of the Photosynthetic apparatus of freshwater phytoplankton: problems - progress and perspectives

In: Photosynthesis: Mechanisms and Effects. (G. Garab, Ed.) Vol. V, pp.3985-3990, Kluwer Academic Press Publishers Dordrecht, 1999

76. M. RICHTER, MEWES, H., GOSS. R. **C. WILHELM**

Stimulation of the diadinoxanthin cycle due to UV-B radiation in the diatom *Phaeodactylum tricorutum*.

In: Photosynthesis: Mechanisms and Effects. (G. Garab, Ed.) Vol. III, pp.2373-2376, Kluwer Academic Press Publishers Dordrecht, 1999

77. LOHR, M and **C. WILHELM**

Pigment synthesis and xanthophyll cycle in diatoms under high light stress and during low light recovery

In: Photosynthesis: Mechanisms and Effects. (G. Garab, Ed.) Vol. III, pp.2313-2316, Kluwer Academic Press Publishers Dordrecht, 1999

78. GOSS, R. and **C. WILHELM**

Pigment composition of *Mantoniella squamata* pigment-protein complexes and localisation of xanthophyll cycle pigments

In: Photosynthesis: Mechanisms and Effects. (G. Garab, Ed.) Vol. III, pp.2317-2320, Kluwer Academic Press Publishers Dordrecht, 1999

79. JAKOB, T. , GOSS. R. and **C. WILHELM**

Activation of diadinoxanthin deepoxidase due to a chlororespiratory proton gradient in the dark in the diatom *Phaeodactylum tricorutum*.

Plant Biology, 1, 76-83, 1999

80. C. WILHELM

Photosynthese der Algen, in: Photosynthese, (D.P. Häder, Hrgb) pp. 230-243, Thieme Verlag Stuttgart, 1999

81. LOHR, M. and C. WILHELM

Algae displaying the diadinoxanthin cycle also possess the violaxanthin cycle  
Proc. Natl. Acad. Sci. 96: 8784-8789, 1999

82. C. WILHELM, K. BÖHME & T. JAKOB

Neue experimentelle Möglichkeiten für den Biologieunterricht am Beispiel der Photosynthese  
Math. Naturwiss. Unterricht 52/7 (15.10.1999)

83. R. GOSS, H. MEWES, & **C. WILHELM**

Stimulation of the diadinoxanthin cycle due to UV-B radiation in the diatom *Phaeodactylum tricorutum*. Photosynth. Res. 59: 73-80, 1999

84. B. KOEHNE, G. ELLI, R. JENNINGS, C. WILHELM and H.W. TRISSL

Spectroscopic and molecular characterisation of a long wavelengths absorbing antenna of *Ostreobium sp.* Biochim. Biophys. Acta 44768, 1-14, 1999

85. S. BLEZINGER; C. WILHELM and J. KESSELMEIER

Enzymatic consumption of carbonyl sulfide (COS) by marine algae:  
Biogeochem. 48 (2) 185-197 2000

86. M. GILBERT, A. DOMIN, A. BECKER and C. WILHELM

Estimation of primary productivity by chlorophyll a in vivo fluorescence in freshwater phytoplankton. Photosynthetica 38: 111-126, 2000

87. R. GOSS, C. WILHELM, G. GARAB

Organisation of the pigment molecules in the chlorophyll a/b/c containing alga *Mantoniella squamata* (Prasinophyceae) studied by means of absorbance, circular and linear dichroism spectroscopy. Biochim. Biophys. Acta 1457: 190-199, 2000

88. M. GILBERT, M. RICHTER & C. WILHELM

Bio-optical modelling of oxygen evolution using in-vivo fluorescence: comparison of measured and calculated P-I curves in four representative phytoplankton species. J. Plant Physiol. 157: 307-314, 2000

89. LOHR, M and **C. WILHELM**

Xanthophyll synthesis in diatoms: quantification of putative intermediates and comparison of pigment conversion kinetics with rate constants derived from a model calculation. *Planta* 212: 382-391, 2001

90. R. FROMMOLT, R. GOSS & C. **WILHELM**

The physiological basis for the incomplete violaxanthin-cycle of *Mantoniella squamata* reveals functional heterogeneity of xanthophyll de-epoxidases. *Planta* 213: 446-456, 2001

91. T. JAKOB, R. GOSS and C. **WILHELM**

Unusual pH-dependence of diadinoxanthin de-epoxidase activation causes chlororespiratory induced accumulation of diatoxanthin in the diatom *Phaeodactylum tricorutum*. *J. Plant Physiol.* 158, 383-390, 2001

92. C. **WILHELM** and J. TOEPEL

New approaches to acquire photo-physiological information from natural freshwater phytoplankton communities. In: *Photosynthesis* (B. Osmond, Ed.) Vol. 5, 2321-2330, Kluwer Academic Press Publishers Dordrecht, 2001

93. C. **WILHELM**: The Application of Chlorophyll fluorescence in the Aquatic Environment, In: „Practical Applications of Chlorophyll Fluorescence in Plant Biology“, J.R. DeEll & P.M. Toivonen (Editors), pp.185-202, Kluwer Academic Press 2002

94. A. BECKER, A. MEISTER, C. **WILHELM**

Flow Cytometric discrimination of various phycobilin containing phytoplankton groups in a hypertrophic reservoir. *Cytometry* 48:45-57, 2002

95. K. BÖHME, C. **WILHELM**, R. GOSS

Light regulation of carotenoid biosynthesis in the prasinophycean alga *Mantoniella squamata*. *Photochem. Photobiol. Sci.* 1, 619-628, 2002

96. H. WAGNER; M. GILBERT, C. **WILHELM**

Longitudinal gradients of UV-absorbing shield pigments in leaves from barley (*Hordeum vulgare*). *Physiol. Plantarum* 117, 1-9, 2003

97. J. SKOTNICA, M. GILBERT, I. WEINGART, C. **WILHELM**

Thermoluminescence as a tool for monitoring ozone-stressed plants. *Environm. Poll.* 123, 15-20, 2003

98. C. DIETZ, K. EHLERS, C. **WILHELM**, M. CADELARIA GIL RODRIGUEZ, R. SCHNETTER  
*Lotharella polymorpha* spec. Nov. (Chlorarachniophyta) from Portugal.  
Phycologia 42: 582-593, 2003
99. C. **WILHELM**, J. TOEPEL; A. VIELER, R. RAUTENBERGER  
Photophysiology and Primary Production of Phytoplankton in Freshwater. A Minireview  
Physiologia Plantarum 120:347-357, 2004
