Research Expertise/Activities in Research:

Physiology, Biochemistry and Biospectroscopy of plant, animal and human cells. Plant Primary Production, Basic Phylogeny of photoautotrophs, Primary metabolism of plant cells., Analysis of oxidative stress in cells, aquatic Photosynthesis

Professional Career

Since 1999	Editor in Chief on the Journal of Plant Physiology (ELSEVIER)
2007	Director of the Saxonian Institute of Applied Biotechnology (SIAB), Leipzig
2004-2007	Director of the Center of Teacher Education and School Research (ZLS)
Since 1995	Full professor of Plant Physiology, University of Leipzig
1989 - 1995	Assistant professor Institute for General Botany, University of Mainz
1989	Habilitation and venia legendi in Plant Science, University of Mainz
1983	PhD examination in Plant Science, University of Mainz
1979	Diploma in Biology, University of Mainz
1978	Staatsexamen in Biology, Chemistry and Philosophy, University of Mainz

Training and Research Stays Abroad

1984	Visitor Scientist in UCLA, USA
1990	Visitor Scientist in ENS, Paris

Professional Activities and Memberships
